PROJECTS:

- **Project: Finding the amount of water body diminished in a period of time (Guide: G.Mallikarjun Rao)**
Satellite Images are downloaded manually and the regions corresponding to water bodies are checked and matched with the same satellite image of previous years to find out the amount of water body diminished using Matlab software.
- **Project: Text Repeater**
An android app that repeats the text. The no of times the text should be repeated is given by the user.
Algorithm- bit manipulation is used to optimize the number of times the text is repeated.
